

Stewardship Sunday

Happy Stewardship Sunday! Today we celebrate one of the greatest gifts God gives us—the chance to care for our church, our people, and our mission together. Stewardship isn't just about budgets or committees; it's about *showing up, pitching in, and building something beautiful* with the hands God gave us. Think of it like this: our church is a garden, and every one of us is a gardener. Some of us plant, some water, some pull weeds, some bring snacks (bless you), and some simply show up to enjoy the sunshine. But the garden grows best when everyone plays a part.

This year, we have some fun opportunities to help our garden flourish:
